Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice of Art Unit Number Change

1. Please note that the Art Unit number associated with this Application has changed from 3628 to 3677.

Drawings

2. It should be noted that the drawings have not yet been reviewed by a PTO draftsman. The drawings will be reviewed upon allowance of the application and Applicant will be apprised of their status accordingly.

Claim Rejections - 35 USC § 112

3. Claims 1-6, 10, 13, 16, 18 and 19 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As concerns Claim 1, line 7, "thereof" is indefinite, since it is not clear what is being referred to.

Art Unit: 3677

As concerns Claims 4 and 10, lines 3 and 5, the language "the first and second member" is confusing since this language seems to imply that the female receptacle (or projection) is located on both the first and second member. The language should be amended to more clearly define this structure; for example, the language could be amended to --the corresponding first or second member-- or similar.

As concerns Claim 13, this claim seems to imply that there is a single ornamental edge that conceals the clasp and coupling device, however, there are actually an ornamental edge for each of the clasp and coupling device structures, and the claim should be amended to reflect this fact.

As concerns Claim 16, "the first male snap-style projection", "the first male snap-in projection", "the first female receptacle", "the piece of jewelry", "the second female receptacle", and "the second male snap-in projection" and their various occurrences in this claim lack antecedent basis.

As concerns Claim 18, the dependency of this claim appears improper; as such this claim is redundant with Claim 14. For treatment on the merits, this claim has been treated as depending from Claim 16.

As concerns Claim 19, the dependency of this claim appears improper; as such this claim is redundant with Claim 15. For treatment on the merits, this claim has been treated as depending from Claim 16.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Katz US 5,689,867.

Katz shows in Figs. 5a and 5b, an article of jewelry 17, a first member (element 111 on necklace 17), a second member (element 114 on necklace 17), an enhancer 100, a third member (element 114 on enhancer 100), and a fourth member (element 111 on enhancer 100). The raised wall is considered to be the wall which forms 125A. The ornamental edge is considered to be the outside surface of housing 111, and element 125B.

Patent Customers Advised to FAX Communications to the USPTO

6. In view of delays in mail delivery in recent days, we at the USPTO would like to encourage you to communicate with the USPTO via facsimile. **Facsimile transmissions may be used for correspondence as set forth in 37 CFR 1.6 such as: amendments, petitions for extension of time, authorization to charge a deposit account, an IDS, terminal disclaimers, a notice of appeal, an appeal brief, CPAs under 37 CFR 1.53(d), and RCEs.**

PTO Form 2038 should be used when authorizing payment by credit card; this form is maintained separate from the file to ensure confidentiality.

The USPTO has recently installed server software that enables us to automatically receive facsimile transmissions and route them to the appropriate groups. No special equipment is needed by our customers to use this system other than a regular facsimile machine. Each Technology Center has its own facsimile numbers associated with our server for Official replies to non-final Office actions and for Official replies to final Office actions. In addition, each Technology Center has a Customer Service Center on our server system and can answer any general application status questions you might have, can provide Examiner information and answer paper queries.

Art Unit: 3677

The following is a list of all Official Facsimile numbers for Technology Center 3600:

TC 3600:

Before Final 703-872-9326

After Final 703-872-9327

Customer Service 703-872-9325

By using the Official Before Final and After Final numbers, our server system will automatically generate a return receipt that will include the number of pages received as well as the date and time the facsimile was received. Additionally, the return receipt will include an image of the received cover page. Applicants are advised to use the certificate of facsimile transmission procedures when submitting a reply to a non-final or final Office action by facsimile (see 37 CFR 1.6 and 1.8). Applicants are also advised to retain the return receipt in the event that the Office has no record of the facsimile submission, whether the facsimile submission is a reply to an Office action (37 CFR 1.8(b)), or a continued prosecution application under 37 CFR 1.53(d)) (37 CFR 1.6(f)).

Note, however, the Office currently does not permit new application filings (other than a CPA under 37 CFR 1.53(d)), requests for reexamination, drawings, and certain correspondence set forth in 37 CFR 1.6(d) by facsimile.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The art cited shows various structures similar to Applicant's.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrea Chop whose telephone number is (703) 305-6358.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-2168.
